

Recreation Fee Program 2003

Forest Accomplishments

Fremont-Winema National Forests

Forest Service, Pacific Northwest Region

Rental-cabin fee dollars have played an essential role in the restoration and maintenance of these historic structures; providing unique recreation opportunities for today, tomorrow, and for many future generations of forest visitors.

Bald Butte provides a unique wheelchair-accessible fire lookout rental opportunity with spectacular panoramic views.

User fees not only help maintain the participating campground and trail resources on the Fremont-Winema National Forest, they also assist the Forest in maintaining an existing and growing system of recreation rental cabins and lookouts.

Additionally, these fees provide the Forest with invaluable assistance in the restoration and inclusion of other cabins and fire lookouts into the program.

Remote buildings which may have once been lost to the ravages of time are now being enjoyed by forest visitors on a more intimate, yet self-maintaining, basis.

The following recreation rental cabins and lookouts are currently available to the public on the Fremont-Winema National Forest:

Aspen Cabin- Lakeview Ranger District, (541) 947-3334
Bald Butte LO- Paisley Ranger District, (541) 943-3114
Currier Cabin- Paisley Ranger District, (541) 943-3114
Drakes Peak LO- Lakeview Ranger District, (541) 943-3334
Hager Mountain LO- Silver Lake Ranger District, (541) 576-2107
(Winter availability only)

Other suitable underutilized remote structures on the Forest are currently being evaluated and considered for possible future inclusion in the recreation cabin rental program.

These participating sites on the Fremont-Winema National Forest also benefit from your user fees:

Digit Point CG, Chemult Ranger District, (541) 365-7001
East Bay CG, Silver Lake Ranger District, (541) 576-2107

Hager Mountain Lookout is a popular ski-in and snowshoe-in winter recreation rental. At almost a mile and a half above sea level, perched on its isolated volcanic cinder-cone, this cabin offers a mix of crisp blue winter skies and occasional icy blasts of powder snow.

Thank you, your help makes a difference!
